

WR6 Wall-mounted Rifle Storage system for H&K MP5 and other type of submachine guns

Secure storage of MP5 weapons

The WR6 modular weapons storage system has been designed for storing police weapons, especially MP5 and similar types. (ProxerSafe-WR6 contains six units). It has stable, modular steel frames with components to accommodate the weapons and sensors for a secure access control system.

This open system can be mounted on wall, installed in Universal Weapons Rack or on a cart. Components ensure that weapons can be stored with optics for quick and easy deployment.

The system consists of

- 6 Electronic locks to lock the weapons individually
- 6 Weight sensors for detecting the presence of the weapons
- 6 Position sensors to detect if the weapons are in the right position
- 6 RFID reader to read the RFID tags of the weapons
- 1 Touchscreen operated built-in PC for user identification and weapon release (open and close the electronic locks)

- 1 RFID reader for user identification
- 1 Fingerprint scanner (option)
- 1 Uninterruptible Power Supply (UPS)
- 1 Software to control and list the incoming and outgoing weapons and user rights
- 1 ProxerSafe Cabinet with 6 managed box for weapon magazine (cartridge clip)
